

PRESS RELEASE, Huddinge Sweden 23-OCT-2024

Exciting News from OptiCell Solutions!

We are happy to announce the next step in our journey toward advancing patient care by officially partnering with CliniQnect.

Together, our goal is to streamline cell collection and apheresis, providing vital support for research in advanced therapies. Based at Huddinge, Sweden, OptiCell Solutions addresses a key challenge for research organizations today, securing hospital slots for high-quality cell collection, which is essential for the success of cell and gene therapies.

By offering specialized services in this critical area, we aim to eliminate bottlenecks and ensure timely, efficient cell collection for research. This presents an exciting new opportunity for pharmaceutical companies and CROs to accelerate their programs.

Stay tuned for more updates on how this partner and future partnership will benefit the future of advanced therapies.

About OptiCell Solutions

Founded in 2024, OptiCell Solutions AB specializing in the field of apheresis and cell collection for cell and gene therapy (CAGT). By using our advanced apheresis technology, we can collect large quantities of specific donor cells, significantly advancing CAGT applications within in the biotech and healthcare sector. Furthermore, our extensive experience and know-how in apheresis enable us to offer specialized therapeutic apheresis services to the healthcare sector.

Located near the Karolinska University Hospital in Huddinge we aim to bridge the gap in resources by offering innovative solutions that enhance the availability of essential cells for cutting-edge research and life-saving therapies. With our deep expertise in apheresis technology and a strong commitment to ethical research practices, we are dedicated to improving patient outcomes and supporting the development of next-generation therapies for cancer care, autoimmune diseases, and other severe medical conditions.

At OptiCell Solutions, we strive to be at the forefront of medical innovation, providing the tools and services necessary to accelerate the transition to more effective and patient-centred care. For more information visit our website, www.opticellsolutions.com and follow us at [LinkedIn](#).
